Use of Cookies in Our Streaming Service

Last updated: 16/09/2026

In this streaming service, we implement cookies to optimize your Browse experience and personalize the content offered. These cookies are remembered on your device (computer, smartphone, tablet, etc.) when you visit our platform, allowing us to recognize you and remember settings such as language and other personal preferences.

Legal Basis and Consent

The use of cookies is based on the explicit consent of the user, in accordance with current data protection regulations (e.g., GDPR). By using our service, you agree to the processing of your data through cookies for the purposes described in this policy.

List of Cookies and Their Functions

Below is a summary of the cookies we use, grouped by their function:

Essential and Technical Cookies

(These are strictly necessary for the service to function correctly. They cannot be disabled from our systems).

- **PHPSESSID**

Classification of Cookies

The cookies we use can be classified according to several criteria:

1. By Function:

- **Essential or Technical:** These are indispensable for the service to function. They allow for actions such as keeping the session active, managing consent, processing payments, or debugging errors. They do not require user consent.
- **Preference or Functional:** These allow the service to remember information so you can access it with personalized features, such as language, display settings, or a welcome greeting.
- **Tracking or Analytics:** These collect data on how users navigate our service (pages visited, time spent, etc.). This information, which is generally anonymous, helps us identify issues and improve the experience.
- **Advertising or Marketing:** These store information about user behavior to develop a specific

profile and show personalized advertising on this and other websites. They include tracking cookies to measure the effectiveness of campaigns.

2. By Issuer:

- **First-party:** Issued and managed directly by our domain.
- **Third-party:** Provided by other domains that collaborate with us (e.g., Google, Meta, Microsoft).

3. By Duration:

- **Session:** Automatically deleted when the browser is closed.
- **Persistent:** Remain on the device for a defined period to remember preferences between visits.

Cookies for Personalization and Advertising

In our streaming service, some cookies are used specifically for:

- **Content Personalization:** To collect information about your viewing habits to suggest content that matches your tastes and preferences.
- **Targeted Advertising:** To evaluate the effectiveness of our advertising campaigns and deliver relevant ads based on your interests.

Revocation of Consent and Cookie Management

You can modify your browser settings to be notified about the receipt of cookies or even disable them completely. Please note that by doing so, some features of the service may not function correctly. Additionally, you can withdraw your consent at any time through the configuration options in our user panel or through the privacy options in your browser.

Transparency in Data Sharing

Some cookies may involve sharing data with third parties, such as analytics providers, advertising networks, or technology partners. We are committed to managing this data in accordance with applicable law and to ensuring the security and privacy of your information.
